**DETAILED ACTION**

***Election/Restrictions***

1. Applicant's election with traverse of Group I, claim 52 in the reply filed on 10/4/06 is acknowledged. The traversal is on the ground(s) that it is believed that a single search and examination covering all claims would not place undue burden on the Examiner. This is not found persuasive because the groups are restricted in terms of combination and subcombination, product and process of using, and distinct species.

The requirement is still deemed proper and is therefore made FINAL.

***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claim 52 is rejected under 35 U.S.C. 102(b) as being anticipated by Sapru et al., U.S. Pat. No. 4,551,400.

Rejection of claim 52 drawn to an anode.

Sapru et al., teach an anode that is a chemically rechargeable anode (col. 1, lines 59-64).

Thus, the claim is anticipated.

4. Claim 52 is rejected under 35 U.S.C. 102(b) as being anticipated by Tao et al., WO 01/80335 A3.

Tao et al., teach an anode that is a chemically rechargeable anode (abstract).

Thus, the claim is anticipated.
